If we include in the receipts and shipments the contents of the boxes taken on the Superior and the amount of the supplement, it will make the receipts and shipments of the past two weeks about as follows, viz:

Shipments.....34,687 articles.
Receipts.....29,918 "

Before closing the report we would state that, in many instances, it is entirely impossible to tell where the boxes of supplies have been sent from. It is the desire of the Commission to include in the published report the names or services of all contributors; but from the fact that no lists are sent, or nothing is found on the boxes to indicate it, we are unable to do so. If contributors in general would take, in these particulars, a little more care, in marking their boxes and in the lists of their contents, we think no trouble will arise in the future in our failing to publish all contributions. Over fifty boxes have already been sent, which we have not been able to trace to the proper sources.

CINCINNATI April 15, 1862.

Rev. Chas. Boynton, D. D.:
DEAR SIR: The undersigned members of your congregation and others, sympathizing in the sentiments of your able sermon of last Sabbath morning, (occasioned by the request of the President of the United States,) based upon "God's hand in the war," and believing a large number of the people of this city would gladly hear it, beg you to repeat it, in substance at least, at such time and place as may hereafter be designated.
Your obedient servants,
B. I. Aydelott, A. D. E. Tweed,
George S. Blanchard, J. M. Sibley,
James McFarlan, Richard Smith,
Joseph DeCamp, William Smith,
S. Straight, W. D. Chipman,
William W. Davis, William Glavin

Yesterday morning, however, the gunboat Sebago arrived, having a heavy one hundred pounder rifled Parrott gun, and at once opened upon them with shell, which were so well aimed, that they could be seen falling in their midst, and exploding with fatal effect.

The rebels could be distinctly seen carrying off their killed and wounded, and in the course of two hours the work was entirely suspended. The men retired out of range. At every attempt to renew the works, they were driven back, up to-night.

The guns mounted by the enemy on the Yorktown side of the river number not less than fifty 100-pounders, six of them rifled, bearing direct on the bar.

The gunboats are at present about two miles below the town. There is said to be skirmishing along the whole line before Yorktown, and the Berdan Sharpshooters are spreading terror among the gunners of the enemy by their unerring aim.

The enemy have made several sorties with infantry to dislodge or capture our riflemen, but have been driven back with heavy loss.

As to the arrangements for the final siege, we need only say, the work goes bravely on.

FROM WASHINGTON.

Rumored Changes in the Cabinet—The Censorship of the Press to be Abolished—Proposals for Gunboats—Treasury Matters.

[Herald's Dispatch.]

WASHINGTON, April 16.—There are strong indications of important changes in the Cabinet within a few days.

Congress has at last began to take notice of the censorship exercised over the press. There are indications that it will be either speedily abolished or essentially modified.

The Navy Department has invited propositions, by mail or telegraph, to the 30th inst., at noon, with general specifications and plans, for the construction of one or more gunboats, for the Mississippi and Gulf service, with two turrets, on the plan of the Ericsson battery, for 11-inch guns; thickness of the iron plates to be eight inches; the sides to be plated with iron of three inches thickness, in one or two layers, to extend two and a half feet below the load line. The vessels not to be less than 220 feet in length and 56 feet in breadth, and not to draw over six feet of water when loaded and ready for service; to be propelled by screws, to insure a speed of nine knots, or sea miles, through the water per hour, and state time and price.

The Secretary of the Treasury, it is said, has decided to redeem 20 per cent. in cash of the certificates of indebtedness issued before the 7th inst. It is thought he will receive 40 per cent. additional of these certificates in payment of the bonds he may thereafter sell.

FROM HAVANA, MEXICO AND THE GULF.

Powder Scarce in Havana—Mexican Affairs—A Rebel Sutler Runs Away With \$10,000—Few Rebels at Pensacola—Cotton Vessels.

NEW YORK, April 16.—The steamer Columbia, from Havana on the 30th, has arrived.

Confederate buyers were much chagrined that no powder was at Havana. Thirty thousand pounds sold at 75 cents per pound; it would bring a dollar or more on the 12th.

Dates from Vera Cruz are to the first, and Mexico to the 23th. Vice Admiral Jurien was recalled. Gen. Robles was executed on the 23d for treason.

President Juarez demands that Almonte be given up. The French refuse.

Comonfort has been appointed by Juarez Military Governor of the State of Tamaulipas.

The steamer Philadelphia, at Havana on the 1st, from Fort Pickens, brought nine refugees, and one sutler from the rebel camp, who ran away, taking ten thousand dollars in gold and a large amount of rebel scrip.

Only five hundred rebel soldiers were at Pensacola.

The fort at the eastern end of Santa Rosa island had been taken by the National troops. Peace had been restored in Honduras.

A number of small vessels had arrived at Havana; also the rebel steamer Austin, from New Orleans, with cotton. The so-called English steamers Miramon and Fox had also arrived with cotton, the former from New Orleans.
